1 Homework assignment

1.1 General comments

- The submitted homework is handwritten and therefore not easy to read after scanning. We suggest typesetting in LaTeX for the next homeworks.

1.2 HW3 (a)

- Looks OK.

1

1.3 HW3 (b)

- Looks good

1.4 HW3 (c)

- You have not used the fact that the convergence rate is dependent on the topology and the routing protocol.

- The topology here is a Random Geometric Graph.

- The convergence also depends on the topology and the routing protocol.
